Archery Bow-Stringer Pattern

(ACTUAL SIZE)

Saddle

TheUrbanAb.com
The Urban Aboriginal

Fold here
for saddle

Cup

This archery bow-stringer pattern
requires two parts.
1). Cup - the whole pattern
2). Saddle - just the top part of the "T"

After tracing the whole cup pattern
on the material, the pattern can
either be folded or cut at the dotted
line. This will create the pattern for
the saddle part of the bow-stringer
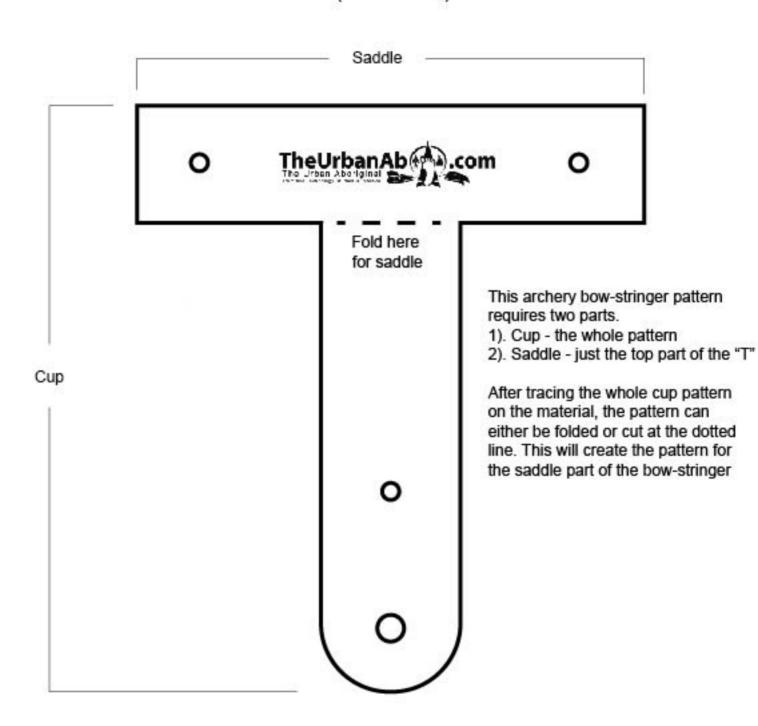

*For larger sizes...be sure to cut out the pattern
outside the outline to the size you think you will need.
